Warren's Big Day

Warren Nelson, sustained a spinal cord injury a few years ago in early 2016, but he did not let that stop him from pursuing his dreams.

Following his injury, he became very dedicated to recovery. He began therapy at Life Beyond Barriers Rehabilitation Group in Rockford and then transferred to the Traverse City location upon opening of the clinic. He currently attends twice per week, and also trains at Barwis on other days. He met Ci'onna in March of 2017 while she worked for his family at BC Lanes.

"She avoided me the first few weeks after I met her", he chuckles. They began dating shortly after. On August 10, 2019 they tied the knot at Castle Farms. Warren stood for the entire ceremony, a full half hour and walked her down the aisle. "It's hard to walk in a tux," he said with a smile, not to mention there was a little bit of

uneven turf with the brick terrain. Warren says he doesn't have much for words, but he is so glad that it worked out. The weather turned out nice, a perfect 70 degrees. He had been working hard on this goal in therapy for a while. He wanted to be able to stand for his wedding ceremony and walk Ci'onna down the aisle. Take a look at his wedding video on our Facebook page. Thank you Warren for sharing your wedding day with us and being an inspiration to many.

Pediatrics Open House

We recently celebrated our expansion of our Pediatrics Program and appreciate all of those who made it to our open house. A special "Thank you" goes out to Go-Go Squeeze, Teeter Orthotics, and Airway Oxygen for being present and supporting our program. We also savored the amazing pretzels made by TC Petoskey Pretzel! We enjoyed all the energy that the kids brought to the fun activities facilitated by staff and the pure joy on their faces. As you probably can imagine, the face painting station was the most popular!

We are excited to share our space and clinical expertise dedicated to children with neurological disorders/injuries.

Anna Semelbauer, PT and Julie Cook, OT are highly experienced therapists in the pediatrics realm and have a passion in working with children (from birth on) and their families. Our team strives to provide a comfortable atmosphere, where the toughest challenges are faced and overcome. To learn more about what services are provided give us a call or check out our website: www.lbbrehab.com/pediatrics

Special Announcement

We are pleased to announce that Dr. Andrew Cole has teamed up with LBBRG. Beginning 12/1/19, he will be available in a consulting capacity to further enhance the therapies provided by our highly dedicated team of therapists.
